StealthStation™ ENT
Navigation System

Medtronic

Medtronic
Further. Together

EXPANDING WHAT'S POSSIBLE

The new StealthStation™ ENT is a navigation system for your most basic to your most complex cases. It is built on decades of scientific, clinical and engineering research. StealthStation™ ENT offers electromagnetic technology that expands what was previously possible with image-guided surgery so you can **see more, do more.**

STEALTH IS... IMPROVING WORKFLOW. NOTABLY.

The elegantly designed, flexible StealthStation™ ENT streamlines the operating theatre so you can maintain focus.

- A flat, under-the-head emitter is easy to position and out of the way during the surgery.
- With an optional side-mount emitter, the system enables multiple setup options for increased procedural flexibility.
- Additional EM coils create a large EM field.

STEALTH IS... NAVIGATING CRITICAL AREAS. CONFIDENTLY.

Development of surgical planning tools for the StealthStation ENT provides confirmation and enhanced visualisation, through image registration and anatomical modeling

- TRU registration combines registration methods and provides numerical and visual accuracy feedback.
- Virtual endoscopy provides a simulated 3D endoscopic view of the sinuses to visualise anatomy, pathology and preoperative plans inaccessible with a traditional endoscope.
- 3D modeling provides enriched visualisation of the patient's anatomy and pathology.

STEALTH IS... PARTNERING WITH A PROVEN LEADER. **SUCCESSFULLY.**

Medtronic has been your trusted partner for image-guided ENT procedures for 20 years, and we're just getting started.

- Only Medtronic offers the longstanding dedication, innovative technology and reliable support.
- Our navigation technical services team provide dedicated technical assistance, reducing turnaround time with local repairs.

YOU ARE STEALTH

StealthStation™ ENT is named in honour of you and your colleagues who perform image-guided procedures with exceptional skill.

Stealth is how you work.

You evaluate, plan, target, then navigate to treat your patient.

Stealth is your commitment to your patients.

You leverage the latest technology to support your surgical technique.

Stealth is the vision you bring to every surgery.

In the fight against disease, arm yourself with the StealthStation™ ENT.

THE PERSPECTIVE
YOU NEED
TO SUPPORT THE
OUTCOMES
YOU WANT.

YOU'RE AT THE
FOREFRONT
OF ENT SURGERY.

YOU ARE STEALTH.
